

# STAND OUT PRINTS IN BRILLIANT FLURO

GP SERIES 10 COLOUR

**Canon**

# SHARE YOUR VISION AND STAND OUT IN AMAZING FLURO

Showcase your posters and present your work in vivid fluro colour with Canon's large format printers.

Choose from a range of print sizes and capabilities, and let your work shine through with our new models:

- 24" imagePROGRAF GP-2000
- 44" imagePROGRAF GP-4000

## EXPRESS YOURSELF IN COLOUR

Create your vision with the impact of a super-wide colour gamut incorporating five newly developed colours that include fluorescent pink enabling production for applications that demand faithful colour reproduction, such as:

- Corporate colours
- Graphics that include fluorescent colours, which are difficult to reproduce with a conventional inkjet printer
- Colour proofs with a wider colour gamut

### Industry-Standard coverage

The imagePROGRAF GP-4000 is the world's first PANTONE™ calibrated printer<sup>2</sup> for PANTONE PASTEL and NEON GUIDE Coated<sup>3</sup>, in addition to 99% coverage from the PANTONE FORMULA GUIDE Solid Coated<sup>4</sup>.

### High Productivity

Smart roll paper set and multifunction roll capabilities help maximum efficiency, while hot swap ink tanks allow ink to be replaced without interrupting the printing process.

### Pin-accessed security

The enhanced security print feature brings an extra confidence in your data security as utilising a PIN access system to help prevent leakage due to misidentification, loss.

## RIP SUPPORT TO ASSIST A VARIETY OF OUTPUT WORKFLOWS

Leading RIP vendors in designing, proofing output, print services for large format printers are preparing RIP that support the imagePROGRAF GP-4000/2000.

Users can use software RIP for various purpose without changing their familiar output workflow.

## HIGH PRODUCTIVITY

### Smart Roll Paper Set

Equipped with a Smart Roll Paper Set simply set the roll holder in the printer and let the media load automatically. The built-in multi-sensor measures the surface reflection and the media thickness to determine the media type without the need to manually enter it.

### Remaining Media Estimation

Accurately measure the remaining media on a roll without the need to print a bar code saving both ink and media.

### Multifunctional Roll System

The optional Multifunction Roll System enables either a second roll of media to be loaded on the printer, or the unit can be configured as a bidirectional media Take-up unit.

The dual-roll feeding enables users to load a second roll of a different media type and size so users switch media types without pausing their work to reload.

## CONSISTENT COLOUR

### Colour Calibration

The colour calibration function is designed to produce consistent colour reproduction. The printer includes a built-in colour densitometer that manages precise calibration and colour matching.

### Device Management Console

The Device Management Console software lets you perform colour calibration remotely making it ideal for fleet management.

The software lets you monitor the status of up to 50 units and be notified by email when an error has occurred, or check the amount of ink remaining in the printers.

### PosterArtist

Canon's PosterArtist lets you design and print professional posters in four simple steps. Making best use of the fluorescent pink ink in the GP series to create a poster that can make the most of the wide colour gamut and print modes.

**Vivid Mode** – Printing an entire image in Vivid colours with fluorescent ink without special operations.

**Spot Mode** – Specify where you want to use fluorescent ink, and add eye catching elements to your design.

## SOFTWARE SOLUTIONS

### Direct Print Plus

Batch print files and monitor the status of more than one device for efficient production printing. Set up hot folders on your desktop by clicking the Shortcut Print feature to simply drag and drop files for processing.

Create multiple folders, each with their own customised settings, allowing multiple jobs to be run with ease.

Additional features include:

Easily collate sets

- Display job status
- Nest images
- Print file name, date and time on separator sheets

### Free Layout Plus with Microsoft Plug-in

Nest, tile and create custom layouts before printing your files.

Take advantage of the plug-in feature to print directly from Microsoft Office programs.

Note:  
• 24 months manufacturer warranty – Terms and conditions apply see website for details.
